ROSES COLLECTION

# ROSES COLLECTION

SPRING - SUMMER 2019

The Rose...the undisputed Queen of Flowers.

With colors ranging from lush deep red to velvety soft pink, VOLUSPA "ROSES" Collection is a fragrant homage inspired by the garden queen. The collection showcases creatively interpreted fragrance, artfully designed glass and packaging hues, and careful representation of the delicate fragrance itself. The candle glass was designed to emulate layered petals, each carved with a classic geometric cube pattern. Softly colored with a sheer iridescent glow to match real life rose petals, we invested a year in developing just the glass selections. The packaging art was created from layered photographs of garden roses I captured for inspiration in my neighborhood, Corona Del Mar, California.

My time in both the floral industry and the aromatherapy industry deepened my appreciation for roses. Each flower is different. Each growing region imparts subtle nuances into the character of the rose type. Each method used to extract the fragrant oil is different. So many variables impact the eventual beautiful outcome. It is truly art in fragrance to get the nuance of a rose into a bottle...or into the most luxurious wax in the candle industry for that matter.

Part of the development process for this collection came from an unusual source...Gourmet. Playful use of rose petals in everything from tea to cake, while not new, is becoming more common. Rose petals covered with sugar crystals and added into creamy vanilla ice-cream?

My heaven on Earth. Three of the fragrances in "ROSES" collection were touched by this inspiration and I hope you enjoy them as much as I do.

# Sweet TREATS

## MACARON COLLECTION

There is something about the crispy outside, lusciously sweet inside, and cloud like perfection of a macaron cookie. The first time I walked past one of the famed Parisian macaron shops, my mind was blown by the enticing colors and creative flavors. I practically ran inside, and came out holding three bags filled to the brim with the delectable treats.

Over the years I have seen this little dessert darling blossom into a delish trend practically everywhere I travel. Locally, I've stumbled onto tiny bakeries that are upping the ante with seriously creative herb/floral/ crème/dessert combinations, not to mention stunning colors and presentation. All I have to say is, thank God for YUMMY macarons! I hope you enjoy the fragrant creations we've made inspired by my favorite treat!

# CRUSHED CANDY CANE

Welcome to Santa's Village – or at least what I've dreamt it smelled like since I was a little kid – where the snap of crisp peppermint intertwines with the warm buttery scent of fresh baked cookies. Our NEW fragrance Crushed Candy Cane is an instant holiday treat, just add hot chocolate!

This collection's nostalgic red and white stripe detailing also pays homage to the North Pole. I commissioned our glass makers to hand paint each piece individually. These truly custom candles are priced a little above our in-line Macaron Collection candles, but worth every penny. I'm obsessed with these sweet twisted treats. Collect them all as we've only produced a limited batch...once they are gone, they are gone!
